International Trade Mr. Speaker, as mentioned, Canada is a key NORAD and NATO ally. As the number one purchaser of American steel, any trade restrictions on Canadian **steel** and **aluminum** are unacceptable. This industry is fully integrated, and of course, it provides enormous value-added to the North

International Trade Mr. Speaker, we will always defend Canadian interests and values, and as a key NORAD and NATO ally, and a number one customer for American steel, any trade restrictions on Canadian **steel** and **aluminum** are not acceptable. Our **steel** and **aluminum** industry is highly integrated

International Trade Mr. Speaker, as we are a number one customer of the American steel industry, any restrictions on the **steel** and **aluminum** trade in Canada would be completely unacceptable. Our **steel** and **aluminum** industry is highly integrated and supports the American manufacturing supply chains

International Trade the Americans have announced devastating tariffs on our **steel** and **aluminum** manufacturers. While our PM feels his job is only ceremonial, Canadians are looking for real leadership. Has the PM confirmed that Canada will be exempt from these new devastating tariffs? Jobs are at risk.
