Letter of Recommendation for Mr. Farell FOLLY.

To Whom it may concern

I would like to recommend the NCSG Policy Committee member Farell Folly as a beneficiary of a travel slot available for the next meeting Barcelona, per the NCSG Travel policy and I believe he satisfies the requirements indicated there.

Farell is an active Policy Committee member and fulfilling his role through regular contributions to the PC work as NCUC representative, and volunteering for drafting Public Comments such as the ICANN Africa Strategy and collaborating in many activities related to policy or internal procedures. He is also attending regularly the NCSG Policy call and so following the policy discussion and GNSO council activities. He also reaches me anytime to ask for more clarifications and questions about ongoing discussions indicating a commitment and genuine interest on GNSO activities. I first met Farell in 2016 during ICANN 55 in Morocco, and with the three years experience he's got in ICANN I am happy to see his evolution and the level he has now reached.

Following the aforementioned, I would highly recommend that the NCSG EC considers his participation at the next ICANN meeting in Barcelona with a commitment that he will attend all GNSO Council, NCSG and relevant PDP WGs sessions, and support the Policy Committee activity there. A physical participation would not only be a good opportunity for him to gain more experience but also benefit the NCSG who can count on him for any onsite support required.

Best Regards,

Rafik Dammak
