

Name	Johan Helsingius
Affiliation	Member of NCUC, but as NCA, affinity to all GNSO constituencies
Please provide an overview of your experience/expertise with GNSO policy development processes	2 years as member of GNSO Council (NCPH), actively tracking multiple processes, such as the bylaws drafting effort. Member of Standing Selection Committee. Member of multiple Accountability WS2 subgroups.
Please provide an overview of your Previous engagements in GNSO work in a leadership capacity	As NCA on the Council, I have tried to maintain a neutral position, getting as familiar as possible with the working, issues and concerns of all constituencies – not just the NCPH, but the whole GNSO, attending (open) meetings as much as possible.
Please describe your familiarity with GAC processes, including GAC engagement in GNSO policy development	My familiarity comes purely from observing GAC open meetings and interactions, as well as GAC positions in CCWGs, along with discussions with GAC representatives.
Please provide any other information that demonstrates your qualifications for this position	Experience in managing geographically diverse, distributed organisations (on board and management team level), dealing with multiple cultures. Familiarity with government policy processes, as well as conflicts between public and private space. More than 10 years of practising Kyudo (Japanese archery) has taught me appreciation of attention to minute formal details, as well as patience and understanding of apparent lack of progress despite hard work.
